August 26, 2009

Dear Registrants:

The Nova Scotia Board of Examiners in Psychology is developing a profile of psychological services in Nova Scotia. Completion of the Psychological Practice Profile is a **mandatory** component of the renewal process this year. Be sure to return your completed practice profile with your NSBEP renewal forms.

Specifically, the Board is collecting information about your areas of practice (e.g. Clinical, School, Research, etc.), the percentage of time you spend working in these areas, the activities and services you provide, and the percentage of time these services are provided to various age groups.

With your renewal materials, you will find a Psychological Practice Profile form. Part A of the Psychological Practice Profile asks you to check the areas of your psychological practice and estimate the percentage of time you spend working in each area. For instance, if you spend four days per week engaged in clinical work and one day per week doing research, you would check #1, Clinical, and #5, Research. You would then write in 80% for Clinical and 20% for Research.

Part B of the Psychological Practice Profile asks you to indicate the activities and services you provide within the areas of practice indicated in Part A. For instance, if your clinical work involves Consultation, Assessment/Evaluation, and Intervention/Treatment with Adults you would enter #1 in the appropriate boxes for Adults. Likewise, if your research was with adults, you would enter #5 in the box corresponding to Research and Adults.

Part C of the Psychological Practice Profile asks you to estimate the percentage of time you spend engaged in the activities and services that you entered in Part B. For instance, if you spend the equivalent of one day per week doing consultation, one day per week doing assessment, two days per week doing treatment, and one day per week engaged in research, you would enter 20% in the appropriate box under Consultation, 20% in the appropriate box under Assessment/Evaluation, 40% in the appropriate box under Intervention/Treatment, and 20% in the appropriate box under Research. The total percentage of time should add to 100%.

Allan R. Wilson, Ph.D.
Registrar

PSYCHOLOGICAL PRACTICE PROFILE

A. In the area below, check the applicable area(s) of your psychological practice and indicate the percentage of your time spent working in the area(s).

1. Clinical		5. Research	
2. Counselling		6. Academic (teaching psychology)	
3. School		7. Industrial/ Organizational	
4. Forensic/ Correctional		8. Clinical Neuropsychology	

B. Once you have indicated your area(s) of practice, use the corresponding numbers to identify in the below table the activities and services you provide and the clients to whom you provide these services.

C. Finally, please indicate the percentage of your time spent working with the activities, services and clients selected below. Again please use the corresponding boxes of the below table.

Clients	Administration	Consultation	Assessment / Evaluation	Intervention / Treatment	Research
Infants					
Children					
Adolescents					
Adults					
Elderly					
Families					
Organizations
